

Innovision Building Safety & Security (P) Ltd

Innovision is the strongest partner in your supply chain management

Established in 2014, Innovision Building Safety & Security Pvt. Ltd. is one of the rapidly growing distribution companies focused on diversified product verticals in the field of Safety, Security & Building Automation. Innovision is partnered with globally renowned security system product brands such as BEL, EBELCO, DORMA, GST and SCHUTZ. We have carved a niche for ourselves as being one of the most trusted and reputed distributors of Security, Fire detection & suppression, Building Management system products in India.

Our organized and professional distribution business serves as a reliable and trusted partner for our customers. Furthermore, we offer value addition through our strong procurement team in sourcing and supplying difficult to source materials from within or outside India. We are strongly committed to continue growing our product verticals, our geographical reach and our customer base year after year.

A collage of various fire alarm and safety devices. At the top, a blue banner reads "Access Control Accessories". Below it, there is a gold-colored magnetic door lock with a red "BET" label. To the left is a black door handle with a silver plate. In the center is a blue "EMERGENCY EXIT" sign with a red "PUSH" button. To the right of the sign is a clear plastic emergency door release device with green and white labels. Further right is a silver square manual call point with a red button and a hand icon. To the right of that is a green emergency door release device with a red button and a hand icon. At the bottom left is a silver metal door frame. In the center bottom are two red and blue plastic door stoppers. At the bottom right is a silver "SCARE ALARM UNIT" with a speaker grille and a "MUTE" button.

PAS & Intrusion Products
